

#SAL "Secur-A-Latch"® Privacy Keeper

PATENT
#6,244,636

- Lifetime non-corrosive spring ensures permanent return
- Lifetime magnet ensures permanent holding
- Highest level of assurance for safety and eliminates lockouts

**the original
innovator**

**Are hotel guest complaints and door damage
caused by doors hitting a privacy guard a problem?**

**ACTIVE
LINK**

View video demonstration online at <http://dhsi-seal.com/securelatch.htm>

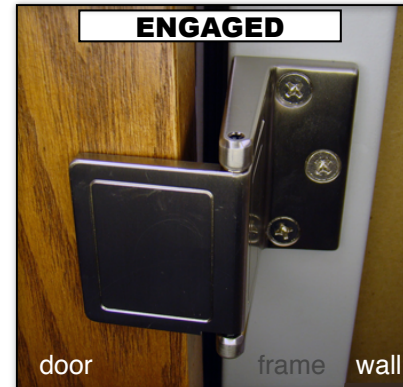

Spring holds "SAL" in unlocked position.
Push to engage and secure.

"Touch to release"® to disengage magnet.
Also disengages quietly upon door closing.
Spring resets "SAL".

**Viewed
From
Inside
Room**

"Touch to engage"®
Magnet holds "SAL" in locked position.
Prevents door from opening.

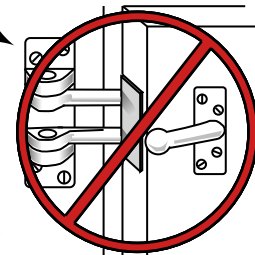

Eliminate the swing bar door guard

- the biggest "problem product" in the industry:

The Conventional
Swing Bar door guard
is **not compliant**
per NFPA 80.

This applies to new **and**
existing openings.

Use the #SAL instead!

"Secur-A-Latch" eliminates door damage, edge guards,
noise complaints, adjustments and is **CODE COMPLIANT**.

★ Makes a door code compliant - for fire code and ADA ★

★ **Can't prop door open - for NFPA 80 code compliance**

- Quietly Disengages- If guests try to prop door open
- No damage to door face or edge, or adjacent closet doors
- Available in various Architectural Finishes:
US3, US4, US10, US10B, US14, US15, US17A, US26, US26D
- Consult DHSI for convenient bypass operation for emergency ingress.

★ **Touch to Engage - Touch to Release for ADA**

- Emergency Bypass satisfies Life Safety
- Rare earth magnet eliminates re-locking from vibration
- Self-Adhesive Decals available to cover existing holes
- Use in preschool, daycare, etc for unwanted exit.
- Code compliant hold-open option for unoccupied rooms

#SAL x Finish

- Specify with DHSI Patented "Cush 'N' Seal" Frame Seals, Door Bottoms, Transitions, DVC and CNB!

#SAL-D1 and #SAL-D2 "Secur-A-Latch" Decals

Door and frame hole cover labels for renovation use of "Secur-A-Latch"

Part #SAL-D1 = "For your comfort and safety..."

Part #SAL-D2 = "Warning: door locks automatically..."

The decals cover the holes left in the door and frame from the 'swing-bar' door latch, especially when the #SAL is mounted at 48" or less from the floor to meet current ADA guidelines.

PATENT
#6,244,636
AND PATENTS PENDING

#SAL-D1

Reminds users to use the "Secur-A-Latch" and deadbolt.

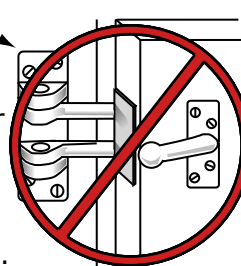

#SAL-D2

Reminds users the "Secur-A-Latch" will not allow them to prop the door open.

Eliminate the biggest "problem product" in the industry:

The Conventional Flip Latch Privacy Keeper is **not compliant** per new updates and changes in NFPA 80.

This applies to new **and** existing openings.

"Secur-A-Latch" eliminates the need for edge guards, and the decals will cover the holes in the door and frame.

#SAL-CONN Connecting Spacer

#SAL PATENT
#6,244,636

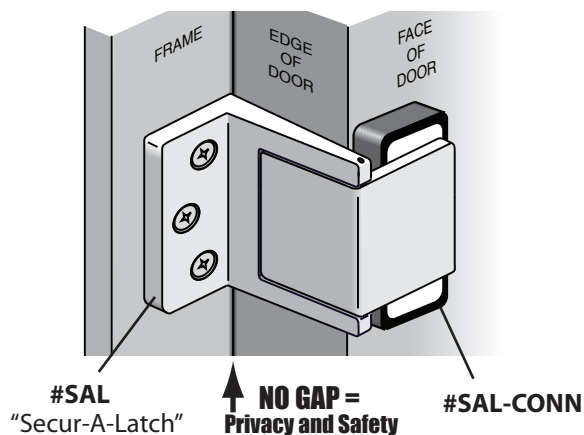

Optional spacer for use with "Secur-A-Latch" at Connecting openings

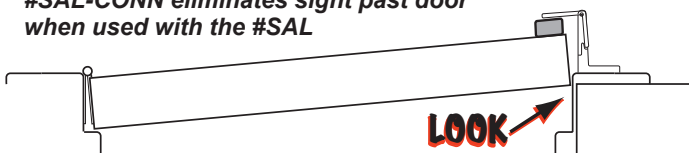

#SAL-CONN

- Deadbolt warning label for security.
- Does not allow opposite guest to see past the door.
- Does not allow easy hooking of the lever to enter when the opposite guest forgets to engage the deadbolt!!
- If latch is 'carded' the lever can not be hooked.
- Specify the #SAL-CONN with the #SAL Privacy Keeper!

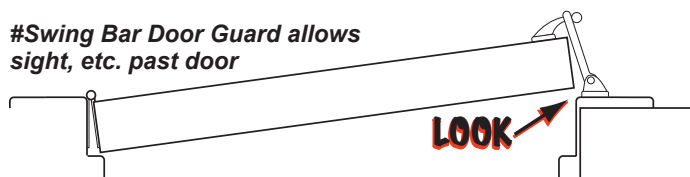

Does not allow sight past door at Connecting!

#SAL-CONN eliminates sight past door when used with the #SAL

#Swing Bar Door Guard allows sight, etc. past door

- With the use of a traditional flip-style privacy guard, a guest may not know the deadbolt is not engaged, may engage the privacy guard and may not realize the latch on the lever was not fully engaged, which would expose them to easy entry.

#SAL-SC Screw Cover

Optional cover for use with "Secur-A-Latch" to cover screws for aesthetic purposes

- Matching architectural finishes - available in US3, US4, US10, US10B, US14, US15, US17A, US26, US26D
- Applies with extremely strong adhesive
- Self-Adhesive for easy application
- Discourages tampering

#SAL-SC

Specify with DHSI Patented #SAL "Secur-A-Latch" Privacy Guards, "Cush 'N' Seal" Frame Seals, Door Bottoms & Thresholds

#SAL-PAD "Secur-A-Latch" Cush Pad

Optional Sound Absorber Pad for use on "Secur-A-Latch"

Part #SAL-PAD

Concealed

Concealed

- #SAL-PAD is optional only. Under normal use pad is not required.
- Can reduce sound of door hitting the #SAL when engaged.
- Not visible to guest.
- Provides additional sound absorption if door does not hit #SAL squarely
- Available in packs of 25

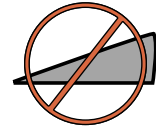

#DS "DoorSaver"® Door Stop / Hold Open

Holds open door without causing damage!

For use by Housekeepers, Chief Engineers, etc.

- Does not cause damage to the door like 'wedge' style door stops
- Holds door open without having to bend over to engage or disengage and pick up
- Non-Skid: Works with Tile, Laminate, Concrete and Carpeted floors
- Used in conjunction with DHSI #SAL "Secur-A-Latch" Privacy Keeper to eliminate damage to edge of door by swing-bar door guard
- Conveniently stores on housekeeper's or engineer's cart
- Shipped flat with velcro closure at top and "zip-lock" bag for use with sand, pebbles, etc.

Specify with DHSI Patented #SAL "Secur-A-Latch" Privacy Guards, "Cush 'N' Seal" Frame Seals, Door Bottoms & Thresholds
